MAZDA BT-50 GUIDE TO NAVIGATION MAP UPDATES

Inside this guide is your step-by-step way to update the maps and get the most from your GPS and Multimedia System.

In the initial 3-Years of ownership your GPS and Multimedia System navigation maps can be updated complementary. Thereafter, individual navigation map updates can be purchased online at anytime.

In using this guide you will require a USB stick and Windows PC with internet access.

Map updates for your Mazda BT-50 are accessed from the www.naviextras.com website and use of the Naviextras Toolbox application. Map updates will be installed using a USB stick.

GET READY FOR THE UPDATE

1. Go to the Naviextras website Go to www.naviextras.com select GET FREE MAPS, then register and login. From the menu select Mazda BT-50 Australia and the X208AU navigation device and continue.

2. Download the Toolbox

Select the FREE UPDATES tab and click on the Toolbox download link.

The Naviextras Toolbox application can be installed to a PC with a Windows XP (SP 2) / Windows Vista (32-bit) / Windows 7 (32-bit or 64-bit) / Windows 8 / Windows 10 operating system. Apple Macintosh OS is not supported.

3. Install the Toolbox to your PC

Download the Toolbox software application and install to your Windows PC. Then open the Toolbox application.

PREPARE THE USB MEMORY STICK

4. Format the USB stick

Using a USB memory stick (8GB or larger) format the stick using your Windows PC. The file system format must be FAT32.

	Slart Cla	811)							

5. Insert the USB stick

Insert the USB stick into the Navigation System USB input port. Then go to the navigation menu and select Settings > Update.

6. Prepare the USB stick for the update

To start preparation of the USB stick the below menu prompt will appear. Select Yes and the Navigation System will prepare the USB.

COLLECT THE NAVIGATION DEVICE INFORMATION

7. Collecting the device information

The Navigation System collects and saves the device information to the USB. Do not remove the USB stick and do not power off the system.

8. The USB stick is ready

When the device information has successfully saved to the USB stick the prompt below will appear. Select OK and remove the USB stick.

DOWNLOAD THE MAP UPDATE

9. Insert the USB stick into the PC

Open the Toolbox application on your PC and connect to the internet. Click the Updates tab and insert the USB stick into the PC. The Toolbox will read the device information on the USB stick.

START THE MAP UPDATE INSTALLATION

12. Insert the USB stick

Insert the USB stick with the Map Update into the Navigation System USB input port. Go to the navigation menu and select Settings > Update.

13. Start the Map Update

The Navigation System will automatically detect the map update stored on the USB stick and the below message prompt will appear. Select Yes.

COMPLETE THE MAP UPDATE

14. Update in progress

During the update process the below screen will appear. Importantly, do not disconnect the USB and do not power off the Navigation System.

15. Update is completed

When the update is successful remove the USB stick and select OK. The Navigation System will restart automatically.

To verify the map version before and following a map update go to the navigation menu and select Information > About > Content > Maps.
